

ACCUSONIC-200RS

Inline Ultrasonic Round Slicing

FoodTools
Industry Leaders in Portion Control

ACCUSONIC-200RS

Average Speed:

Up To 900 Products Per Hour

Function:

This high-production inline machine features two cutting stations with manual load and automatic offload. Touch screen operation allows one operator to attain cutting speeds up to 10 cakes per minute. The machine has quick-change product holders and can cut various cake diameters. Each cutting station has servo-driven ultrasonic blade heads and the conveyor is run by a servo drive for accurate and fast positioning. This machine is best for a high production facility slicing more than 400 cakes per hour.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Conveyor system and dual cutting stations reduce cycle time and make the cutting process more efficient
- Perfectly portion cakes every time
- Reliable and durable equipment backed by manufacturer's warranty
